NAME OF WAIVER

A. Reason for the Deregulation request. Please include how your students would benefit from this deregulation, what alternative means will have to be employed, and negative effects on your alternative education population if your waiver was to be denied

Attendance is still one of the most significant factors in dealing with at-risk students. In the past, we have not had any recourse for addressing attendance issues, except to dismiss the student. After trying several unsuccessful punitive strategies, we devised a positive reward policy based on a four-day week. For the past thirteen years, we have operated under this schedule. This has been **extremely** successful for our program. This schedule allows working students and parenting teens to conduct business (i.e. Dr.'s appt. etc.) on the scheduled day off, or allows them to make up time missed for unavoidable absences, thereby reducing and eliminating attendance issues. If our waiver is denied, we will be set back to previous unsuccessful attempts to reduce attendance issues.

B. List alternate strategies/plans which the district/site proposes, and how this plan will best serve the students of your alternative education program, i.e., a description of the educational benefits to the students, graduation rate if a waiver has been awarded prior to this year, and the result of the previous years alternative education audit.

The attendance strategy we are using under our four-day deregulation consists of a 4.25 hour day for the Alt. Ed. students with Friday reserved as a make-up day. They attend Mon-Thurs and if they miss a day for any reason, they are required to attend Friday. All time missed is made up by the end of the week. The educational benefits are that the students work very diligently to have perfect attendance during the week to avoid the Friday make-up day. Also, with a 4.25 hour session, these students are able to stay focused and complete actually more work than previous schedules have produced. This schedule also allows us to offer multiple sessions each day to accommodate each student's needs. Due to the condensed schedule, our most at-risk students have shown the most improvement. The graduation rate for Yukon Alternative has been 95%-99% since we implemented this policy. Our attendance is usually 100% with exceptions for bereavement or in hospital stays.

C. Educational impact to the district: Results of the Statutory Waiver, i.e., effect on student performance levels, and predicted graduation rate.

This has served our district in a very positive way by almost completely eliminating absences for Alt. Ed. students. My observations over the past thirteen years of using this schedule have been that at-risk students perform much better on a reduced schedule that consists of focusing on academic goals and allowing them to move at an accelerated pace. When I eliminated the attendance discipline measures, my students have shown great progress, and our graduation rate has stayed consistently between 95-99%. The positive impact on our High School has been to allow us to continue to serve more students by having more sessions during the school day. Extending the hours would require reducing the number of students due to our limited space and staff. Overall, this schedule has been very beneficial to our students and district. 100% of our staff support and recommend this schedule.

D. Timeline: Please submit class schedule, calendars, assessment forms and other attachments as necessary, or described in instructions. **A waiver/deregulation can be granted for up to 3 years. (Please see instructions for additional requirements)**

E. Any financial impact to the District (positive or negative) for the proposed waiver/deregulation? If positive please describe where the available would be reallocated.

Financial impacts to the district include:

Full-time aide salaries reduced by 70 hours.

Utility expenses reduced by 35 days.

Reduction of special bus services for Alt. Ed. by 35 days.

Positive financial impact reallocated to Y.A.L.E.

F. Describe method of assessment or evaluation of effectiveness of the plan both for staff and students, I.E., TLE, ACT scores, graduation rates, RSA, School Report Card, etc. ** You will be contacted if more information is needed to process this request.

Evaluation of effectiveness has been measured by monitoring attendance, graduation rate, overall school retention rate and OSDE evaluations of our program.

For the last three years our success rate was 96%-99% despite Covid.

We also have a 100% compliance rating on our OSDE Alternative Education Evaluation. (Enclosed)

All students met State Testing requirements for graduation.

My TLE rating for staff all range from 4.17 Highly Effective to 4.91 Superior.

Staff report very positive feedback on this schedule which is imperative for teacher retention.

** You will be contacted if more information is needed to process this request.

I enjoyed the visit to your district's Alternative Education program and enjoyed learning about the opportunities you are providing for our most at-risk students. You have implemented many wonderful programs for your students.

I have attached the completed Program Criteria Checklist. I do not require any additional information at this time, as you are compliant with the evidence required.

The digital folders for FY 24 are currently available if you would like to start uploading your evidence from this school year. Please email Emily Hicks at emily.hicks@sde.ok.gov to request access to your folders.

Here is the link to your FY23 folder in case you want to move some information to the FY24 folder.

Mr. Pieper
Oklahoma State Department of Education
Accreditation Division
2500 North Lincoln Boulevard, Suite 210
Oklahoma City, OK 73105-4599

Dear Mr. Pieper:

This letter is for submission of a Deregulation Application for the continued authorization for a four-day school week with Friday as a make-up day in our Yukon Alternative Education Program.

Yukon Alternative School has been operating under a four-day program for the last **thirteen** years with amazing success. We keep Friday as a mandatory make-up day, and this has provided an essential tool for students to maintain our attendance requirements. Pending support from OSDE, it is our plan to continue this schedule indefinitely due to its proven effectiveness in eliminating attendance issues in our program.

As in the past approvals, excluding last year, we would like to request this waiver be approved for three consecutive school years including 2023-2024, 2024-2025, 2025-2026 as directed and allowed in the Deregulation Application Instructions.

Thank you for your review of this application.

Sincerely,

Dr. Jason Simeroth
Superintendent - Yukon Public Schools

NAME OF WAIVER

- A. Reason for the Deregulation request. Please include how your students would benefit from this deregulation, what alternative means will have to be employed, and negative effects on your alternative education population if your waiver was to be denied.

Stigler Public Schools requests a waiver/deregulation for OAC 210:35-29-2, Abbreviated Day Alternative Education. We expect to continue to see increased academic achievement results for students in this program. The goal is to see an increased graduation rate and decreased dropout rate, and having this program during the late afternoon/evening hours has provided these at-risk students with the support they need. In addition, this deregulation will allow the use of highly qualified teachers already on staff and relieve the pressure of finding additional, skilled staff.

- B. List alternate strategies/plans which the district/site proposes, and how this plan will best serve the students of your alternative education program, i.e., a description of the educational benefits to the students, graduation rate if a waiver has been awarded prior to this year, and the result of the previous years alternative education audit.

Stigler Public Schools would like to keep the Alternative Education Program school day as Monday through Thursday from 3:45-8:00 pm. This program has been successful over the years, allowing our school to offer an alternative to young mothers who do not have childcare during the traditional school day. The students who typically participate in Alternative Education are at-risk of not graduating high school. Most of these students in Stigler are either emancipated, working full-time at jobs to help support families, or who are raising their children. Recently, we also have students who are leery of being in the traditional school setting because of COVID, among other reasons. Therefore, late afternoon and evening hours are most beneficial for serving these students.

- C. Educational impact to the district: Results of the Statutory Waiver, i.e., effect on student performance levels, and predicted graduation rate.

We expect to see increased improvement in student performance by utilizing core subject teachers to help instruct and assist these students. We also expect to see a continued improvement in the four-year graduation rate and a continued decrease in the dropout rate.

- D. Timeline: Please submit class schedule, calendars, assessment forms and other attachments as necessary, or described in instructions. A waiver/deregulation can be granted for up to 3 years. (Please see instructions for additional requirements)

The alternative program school day will be 3:45 - 8:00 pm Monday - Thursday. The alternative education program will follow the same schedule as Stigler High School except for Fridays. Any vacation, holidays, etc., correspond with our traditional school calendar.

- E. Any financial impact to the District (positive or negative) for the proposed waiver/deregulation? If positive please describe where the available would be reallocated.
This waiver/deregulation will have a neutral financial impact on our district. We ask to give more flexibility in enrollment for our students/parents.

- F. Describe method of assessment or evaluation of effectiveness of the plan both for staff and students, I.E., TLE, ACT scores, graduation rates, RSA, School Report Card, etc.
The outcomes of our late afternoon/evening alternative education program are evidenced by the number of students that graduate through our program. These students would likely be high school dropouts if not given methods outside of the traditional setting. In addition, each student's success is tracked weekly to ensure this is the best setting for that particular student and cumulatively as a program. Data used in the evaluation analysis include: a comparison of students GPA's to previous years, a comparison of State test scores to the previous year's scores, a comparison of alternative education expenditures to previous years, a comparison of graduation rates to previous years, and a comparison of college/career-ready students to previous years.

- E. Any financial impact to the District (positive or negative) for the proposed waiver/deregulation? If positive please describe where the available would be reallocated.

Very little financial impact. District proposal for funds will be almost the same.

We feel that resources would better serve our small community in a Alternative Education programs where students can get more 1 on 1 attention like we have at Whitesboro. Also, our numbers could potentially increase due to the impact of transition students in our district.
